List of websites where students can find public datasets for their projects:

1. **Kaggle**
   https://www.kaggle.com/datasets
   Kaggle offers a large repository of datasets in various categories, including image, text, and tabular data, contributed by the global data science community.

2. **UCI Machine Learning Repository**
   https://archive.ics.uci.edu/ml/index.php
   One of the oldest sources for machine learning datasets, covering a variety of domains.

3. **Google Dataset Search**
   https://datasetsearch.research.google.com/
   Google's tool allows you to search for datasets across the web.

4. **Data.gov**
   https://www.data.gov/
   The U.S. government's open data site, featuring a wide array of datasets across sectors such as healthcare, agriculture, and education.

5. **AWS Public Datasets**
   https://registry.opendata.aws/
   Amazon's repository for public datasets, many of which are hosted in the cloud for large-scale analysis.

6. **Harvard Dataverse**
   https://dataverse.harvard.edu/
   An open repository where you can access a wide range of research datasets.

7. **Stanford Large Network Dataset Collection (SNAP)**
   http://snap.stanford.edu/data/
   Focused on social networks, graphs, and large network data.

8. **Open Data from World Bank**
   https://data.worldbank.org/
   Economic, development, and financial datasets from across the globe.

9. **European Union Open Data Portal**
   https://data.europa.eu/euodp/en/home
   Provides access to a variety of datasets from European Union institutions.
